

Gayal C Ashok AI/ML Data Scientist

gayalc10@gmail.com | +91 7736737580 | LinkedIn: Gayal-C-Ashok | Gayal-C-Ashok-Portfolio | GitHub: Gayal-C-Ashok

Based in Kannur, Kerala | Open to relocation: Bangalore · Hyderabad · Chennai · Mumbai

Professional Summary

AI/ML Data Scientist with hands-on experience in predictive modeling, NLP, and generative AI applications. Skilled in Python, SQL, and ML algorithms with demonstrated ability to build end-to-end solutions, explore data, and deliver actionable insights. Passionate about applying machine learning and data science to solve complex business problems.

Technical Skills

- **Programming & Data Analysis:** Python, SQL, Pandas, NumPy, Scikit-learn, PySpark, Statistics
- **Machine Learning & AI:** Supervised/Unsupervised Learning, Predictive Modeling, GenAI, OpenAI API, Anthropic Claude API, Prompt Engineering, RAG Pipelines, LangChain, TensorFlow, PyTorch
- **Natural Language Processing:** spaCy, NLTK, Resume Parsing, Text Classification
- **Computer Vision:** YOLOv8, OpenCV, Object Detection, Image Processing, Roboflow
- **Data Visualization:** Tableau, Power BI, Matplotlib, Seaborn
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools & Platforms:** Streamlit, FastAPI, Git, Docker, AWS S3

Soft Skills

Problem-solving, Collaboration, Attention to Detail, Accuracy, Communication

Work Experience

AI Developer (Internship) | Zecser Business LLP | April 2026 – Present

- Building Zecpath, an AI-native hiring platform integrating agentic LLM workflows for resume parsing, candidate shortlisting, and conversational decision-making using LangChain, memory management, and tool-calling patterns – simulating end-to-end RAG pipelines with vector-based retrieval and reusable, documented service modules on cloud infrastructure.

Data Scientist (Internship) | InnoDatatics | March 2024 – November 2024

- Improved YOLO-based defect detection accuracy from 89% to 94% through iterative tuning and preprocessing, reducing manual inspection time by 15%
- Optimized data pipelines using PySpark and SQL, cutting processing time by 30%, and developed Tableau dashboards accelerating stakeholder decision-making by 30%

Projects

GenAI Credit Risk Assessment System | Python, Scikit-learn, Pandas, OpenAI API, FastAPI, Streamlit

- Built Random Forest model with 86% accuracy predicting credit delinquency; integrated OpenAI GPT for plain-English explanations; deployed Streamlit dashboard for real-time risk scoring
- Designed complete data pipeline including cleaning, feature engineering, and evaluation; implemented REST API for model serving with Git version control

Automated Syringes and Vials Counting System | Python, YOLOv8, OpenCV, Roboflow, Streamlit

- Engineered YOLOv8 object detection system achieving 96% accuracy via data augmentation (78→188 images) and hyperparameter tuning; deployed Streamlit web app for instant image upload and count display
- Applied object-oriented programming principles and Git version control; implemented comprehensive preprocessing including resizing (640×640) and contrast adjustment

Solar Power Generation Prediction Model | Python, SVM, Scikit-learn, GridSearchCV, Pandas, Tableau, MySQL

- Developed SVM fault-detection model with 96.5% accuracy (GridSearchCV optimized), reducing downtime by 20%; created Tableau dashboards visualizing fault trends
- Implemented preprocessing pipeline with IQR outlier treatment (8,102 outliers), Winsorisation, and MinMaxScaler; saved results to MySQL; deployed Streamlit app for batch CSV predictions

Education

MSc Computer Science | Kannur University | July 2026 – Present

PGD in Artificial Intelligence | State University of New York (SUNY), USA | 2024

Scholarship recipient — NEF Appuji Award (USA) & 360DigiTMG (India) | Ranked among top 100 US public universities

BSc Computer Science | Kannur University | 2024

Certifications

- Claude API, Model Context Protocol, Agent Skills – Anthropic (2026)
- GenAI Powered Data Analytics Job Simulation – Tata Group (2026)
- AI & Deep Learning(TensorFlow, PyTorch) – 360DigiTMG (2024)
- Gold Certificate – Data Science & Python Fundamentals – NASSCOM (2024)
